Call for Proposals

IRIS Researcher Awards

IRIS is excited to announce a second round of awards to fund researchers who will use the IRIS data to address questions about the social and economic returns to investments in research. Up to \$15,000 for dissertation awards and up to \$30,000 for early career and established researcher awards are available.

Applicants must be currently affiliated with an academic or research institution in the United States and proposals submitted must emphasize the use of IRIS data in projects that address open issues in the study of science and technology and in science policy. Beyond the financial award, IRIS provides a community for researchers as well as training and ongoing support. Awarded researchers will receive access to the current IRIS research data release files, which are further described here: <http://iris.isr.umich.edu/research-data/>.

Application Deadline: October 1, 2018
